PROFESSIONAL SUMMARY

Enthusiastic AI and Machine Learning student with hands-on experience in Python, NLP, and data-driven project development. Passionate about building intelligent systems and automation tools. Seeking internship opportunities in AI/ML and Python development.

TECHNICAL SKILLS

Programming Languages: Python, Java, C, SQL, JavaScript

AI/ML Libraries: Scikit-learn, NLTK, spaCy, NumPy, Pandas, Matplotlib

Tools & Platforms: VS Code, Jupyter Notebook, Google Colab, Git, GitHub, Power BI

Web Technologies: HTML, CSS, Bootstrap

Databases: MySQL, SQLite

PROJECTS

Twitter Sentiment Analysis | *Python, NLTK, Scikit-learn, TF-IDF, Logistic Regression*

- Built a sentiment classification model on Sentiment140 dataset (1.6M tweets) to predict positive/negative tweets.
- Implemented text preprocessing pipeline — regex cleaning, stopwords removal, Porter Stemming using NLTK.
- Applied TF-IDF vectorization and trained Logistic Regression model achieving 77.6% accuracy on test data.
- Saved trained model using Pickle for future predictions and reuse.

Automated Text Classification Pipeline | *Python, NLTK, Scikit-learn, Pandas*

- Built a text preprocessing and classification pipeline using NLTK for tokenization, stopwords removal, and stemming.
- Applied TF-IDF vectorization and trained a Naive Bayes classifier for multi-category text classification.
- Evaluated model accuracy using Scikit-learn metrics; exported results to CSV using Pandas for analysis.

EDUCATION

Diploma in Artificial Intelligence and Machine Learning

Delhi Skill and Entrepreneurship University (DSEU), Dwarka | 2023 – Present | 6th Semester

Class 12th – Commerce (76%)

Kendriya Vidyalaya No. 3, Naraina

CERTIFICATIONS

Getting Started with Artificial Intelligence — IBM SkillsBuild | Dec 2025

ADDITIONAL INFORMATION

Languages: English, Hindi | **Typing Speed:** 35+ WPM | **Interests:** AI/ML, Data Science, Python Automation
